# PURPOSE AND RATIONALE OF THE PROGRAMME

Azure is Microsoft's cloud computing service. Azure provides software as a service (SaaS), platform as a service (PaaS), and infrastructure as a service (IaaS) in addition to offering support for several different programming languages. The course is intended to help delegates learn Azure concepts quickly and give enough practice exercises to get them started with their cloud journey with a specific focus on Microsoft Azure.

## 4IR SOFT SKILLS

**4IR soft skills modules will be available to delegates to enrich their learning experience on a self-study, online basis from May 2021. Delegates will be guided to register for these modules and a monthly discussion forum will be conducted.**

## INTERNATIONAL EXAM REQUIREMENT

**The student will need a pass mark of 85% on the Prelim exam to qualify for admission to the international certification exams.**

## TEACHING SCHEDULE & PRESCRIBED TEXTBOOKS, RESOURCES & ASSESSMENTS

Delegates will attend the training virtually via Teams as per dates and times below:
